Species

Red oak — strong grain, the shop workhorse. Takes gray, honey, and espresso well.

White oak — tighter grain, good in natural, limed, and driftwood.

Brown maple — smooth and even. Best for paint, and a clean natural.

Cherry — warm red that deepens with light. Often left natural.

Walnut — already dark. Usually a clear coat, not a heavy stain.

Hickory — wild grain. Natural or a light honey shows the character.
